RE: OOG PIR # 358-19

Dear Mr. Evers:

This email is in response to your public information request to the Office of the Governor ("OOG"), received by the OOG on September 4, 2019. A copy of your request follows this email.

The OOG has reviewed its files and has located the attached documents that are responsive to your request. The OOG has redacted personal e-mail addresses from the attached documents pursuant to section 552.137 of the Government Code and Tex. Att'y Gen. Open Records Decision No. 684 (2009). If you have any questions, please contact me at 512-463-1750 or [publicrecords@gov.texas.gov](mailto:publicrecords@gov.texas.gov).

Sincerely,

Joseph Behnke  
Assistant General Counsel  
Office of the Governor

Hand-delivered by State Senator Bob Hall on Tuesday, February 24, 2015

The Honorable Greg Abbott, Governor of Texas

Dear Governor Abbott:

Thank you for the time you gave the "Texas grassroots" today. I deeply regret having to miss the meeting with you. Roads were not cleared of ice early enough to drive from Tyler to make the meeting.

Thank you for your deeply principled efforts to support the rule of law and true border security for the State of Texas. Your leadership on this matter crystallized last December when you stated President Obama is "eroding the very foundation of our nation's Constitution and bestowing a legacy of lawlessness." You then proceeded to lead 25 other states against the President's executive actions on immigration. You succeeded in obtaining US District Judge Hanen's recent ruling that stopped – at least for a time – implementation of Obama's amnesty by fiat.

Last Monday, answering media questions at your joint press conference with US Senator Cruz, Lt. Governor Patrick, and Attorney General Paxton, you defined border security with the clarity Texans have long awaited. In that defining moment, you rightly compared border security to police operations in large cities. You stated that police work toward the ultimate goal of having "no more murders, no more wrecks, no more thefts," and you concluded with **"Border security means that only those who are authorized to cross the border can do so."**

Thank you, Governor Abbott, for stating what no other leader has been willing to say. We also appreciate DPS Director Colonel McCraw's clarity on the matter, which he repeated several times in the yesterday's Senate Finance Committee hearings – *"The border is secure when you detect and apprehend every smuggling event between the legal ports of entry. We have not secured the border."*

A long working relationship with local and state law enforcement and the visit I made last July with Breitbart Texas and other conservative leaders caused me to dig deeply into this issue. I have read the Texas DPS reports: *2013 Safety Threat Overview*, *2014 Gang Threat Assessment*, and *2014 Assessing the Threat of Human Trafficking in Texas*. These reports beg the question – how did we get here? How did we get to the point that these dangerous criminals have set up elaborate networks of organized crime across our state? **Governor Abbott, we believe you will do everything within your power to reverse this dangerous course.**

We respectfully ask you to consider our recommendation to leverage your leadership with those 25 other states to pursue an interstate compact among these states to gain operational control of the border and the ability to enforce the immigration laws already on the books. Governor Abbott, our Framers gave you the tools you need to lead this nation out of a quagmire that is eroding state and national sovereignty and threatens our national security, our elections, and our fiscal health. US Constitution Article 1, Section 10.3 gives you what you need to lead these other states on this grave matter. **For the love of Texas and this nation, we beg you to do so.**

May God bless you and your precious family,

RECEIVED

July 3, 2015

The Honorable Greg Abbott, Governor of Texas  
The Honorable Dan Patrick, Lt. Governor of Texas  
The Honorable Ken Paxton, Attorney General of Texas  
The Honorable Joe Straus, Speaker of the Texas House

Gentlemen:

With all due respect, **Texans are angry**. As the reality of the Supreme Court ruling sinks in, a ruling that conferred special rights to same sex couples and ripped to shreds the definition of marriage as defined by nature's God, that anger is going to grow. ***You should also understand it is more than a little irritating that political fundraising off the issue is in full gear when no decisive action is being taken to protect our state constitution or our religious liberty.*** Resolve, clarity, and decisive actions are needed and are hereby requested from you – our state officials.

On the eve of celebrating our nation's independence birthed 239 years ago, it is worthwhile to reflect upon these words inscribed on the Jefferson Memorial: "God who gave us life gave us liberty. Can the liberties of a nation be secure when we have removed a conviction that these liberties are the gift of God? Indeed, I tremble for my country when I reflect that God is just, that his justice cannot sleep forever."

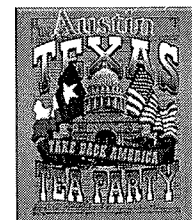

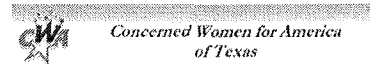

Gentlemen, what has happened with this ruling is no small matter. In fact, freedom itself is at stake as described by modern day patriot, Dr. Thomas Sowell, who laments what he describes as *Supreme Court Disasters*, "*When any branch of government can exercise powers not authorized by either statutes or the Constitution, "we the people" are no longer free citizens but subjects, and our "public servants" are really our public masters. And America is no longer America. The freedom for which whole generations of Americans have fought and died is gradually but increasingly being taken away from us with smooth and slippery words.*"

In light of recent opinions released by the United States Supreme Court, we are deeply concerned that the federal government has over-reached its Constitutional limitations to the extent that the Sovereign State of Texas is in danger of losing its State Constitutional guarantee of a Republican form of government.

We are deeply concerned that you – our state leaders – under pressure by vocal business interests and loud extremists from the left, will simply stand by while our state sovereignty is destroyed and our state constitution nullified by a voracious federal government, assisted by federal judicial activism.

We are deeply concerned by the unprecedented level of apathy and lack of courage demonstrated by a majority of our Congressional delegation and by Congressional leadership as a whole. Their lack of backbone when it comes to wielding constitutional powers to rein in a lawless President and an activist court is sending the United States into clearly uncharted and dangerous territory. We no longer stand on the brink of a constitutional crisis; we are in the midst of it.

**Sirs, we ask you, when will it be time for Texas to resist?**

We bring to your attention the following issues surrounding the SCOTUS ruling on marriage and its impact on Texas:

1) **Left unchecked, the SCOTUS redefinition of marriage sets yet another precedence of federal judicial activism and tyranny.** This ruling was clearly "legislating from the bench," resulting in the usurpation of state law and the trampling of the will of the people as expressed by voters in November 2005, when **76%** of Texas voters approved a proposed amendment to the Texas Constitution defining marriage as between one man and one woman. A majority of voters in only one of the state's 254 counties opposed the measure (60 % of the voters in Travis County, home to the capital, opposed the amendment).

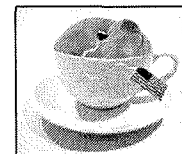

**The Supreme Court took for itself powers not given to the federal government, violating the 9th and 10th amendments to the US Constitution.** Nothing in the US Constitution requires or authorizes the redefinition of marriage by the federal government. The Constitution of the United States says that the federal government has only those powers specifically granted to it by the Constitution—and that all other powers belong either to the states or to the people themselves.

2) **Left unchecked, the federal government has once again commandeered state assets** (assets belonging to the people of Texas), and it appears our statewide leaders and legislators have no will to stop it. Benefits to same sex couples began to flow this week in Texas. The Employee Retirement System of Texas (ERS) announced that same-sex spouses could enroll in the Texas Employees Group Benefits Program beginning July 1st. We are aware of no public meeting or legal process that resulted in this sudden change. This program extends to all state agency and higher education employees as well as retired employees eligible for the Texas Employee Group Benefits Program.

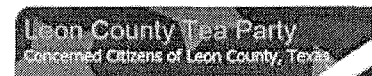

Upon what authority did this agency issue these benefits – benefits that have not been authorized by state law? We are incensed that our duly elected legislature has been bypassed!

3) **Left unchecked, this ruling sets the stage for the demise of religious liberty, which resides in the First Amendment.** We urge you to go beyond mere words and take immediate and decisive action to protect the freedom of speech, the freedom of association, and the freedom of religion for those who continue to abide by the truth of marriage as the union of one man and one woman. The right not to violate one's own conscience is a fundamental right of the First Amendment (conscientious objection). Currently, many other professions and providers are crying out for religious liberty protection such as faith-based adoption agencies, faith-based foster care agencies, bakers, photographers, florists, Christian schools, county clerks, and justices of the peace. If people of faith are already protected, why are legislators promising to file bills next session? The people of Texas should not have to wait until 2017. Would you have us spend thousands of dollars in court and risk losing our schools and businesses because our leaders refused to act? At a minimum, a special session of the legislature is in order!

4) We must NOT take Texas out of the definition of marriage. **Why?** 1) The Heritage Foundation's Dr. Ryan T. Anderson says, "Marriage isn't just a private affair; marriage is a matter of public policy because marriage (as

Fredericksburg TEA Party

handed down through generations and based on the biblical definition) is society's best way to ensure the well-being of children. State recognition of traditional marriage acts as a powerful social norm that encourages men and women to commit to each other so they will take responsibility for any children that follow." 2) Marriage is woven throughout family law (including adoptions), probate law, and throughout the tax code. The call from some to "take marriage out of the government's hands" is a simplistic approach to a very complicated issue. While there is no doubt "marriage" is defined by God – and not government – it was long ago that government got involved in marriage in ways it is not easily extracted.

5) Finally, we call to your attention 28 U.S. Code § 455 - Disqualification of justice, judge, or magistrate judge, which in **plain language** reads: "Any justice, judge, or magistrate judge of the United States shall disqualify himself in any proceeding in which his impartiality might reasonably be questioned." Justices Elena Kagan and Ruth Bader Ginsburg should have recused themselves from the case because it is a matter of public record that they have officiated gay weddings. We believe the rule of law cries out to be enforced! Just because pundits and liberal law professors say a statute doesn't matter, does not make it so. We believe this an issue that should be raised by Texas.

If there was ever a time to fight judicial activism to stop an overreaching federal behemoth on the march against individual and states' rights, it is now. **Texas needs to lead.**

The nation is watching to see if Texas folds. We pray that you do not.

This matter is of vital interest to us and thousands more across the Lone Star State. **Pursuant to our right and duty to petition our elected leaders, we will not cease to raise our voices against inaction.**

**To:** Jay Dyer; Daniel.Hodge@gov.gtexas.gov  
**Cc:** [REDACTED]  
**Subject:** Texas Conservative Grassroots Coalition Letter

Gentlemen:

Attached for Governor Abbott is a letter signed by a wide array of statewide conservative leaders, grassroots TEA party leaders, and Dallas area GOP group leaders. We attempted to send the letter last Friday. Letters to the Lt. Governor, Attorney General, and House Speaker were all delivered successfully; however, the e-mail addresses found in a state directory and used for the Governor's Office bounced back. One of the Liberty 8 Senators provided the correct addresses.

We ask that you promptly forward this letter to Governor Abbott. It clearly articulates our concerns regarding religious liberty, opposition to judicial activism, and our objections to state agencies taking it upon themselves to enroll same sex "spouses" for state benefits when no legislative action has been taken to authorize such an action.

It is important to note these group leaders speak for organizations representing thousands of Texans.

Please acknowledge receipt.

Thank you,

JoAnn Fleming, Executive Director, Grassroots America - We the People

**Re: Holdovers on the Texas Ethics Commission**

Dear Governor Abbott, Lieutenant Governor Patrick, and Speaker Straus:

We write to request that you collectively address and cure a very important deficiency relating to the sovereign officers serving at the Texas Ethics Commission (Commission); namely, the compelling need to appoint qualified new Commissioners to replace those sitting in office under the holdover provision in Article XVI, section 17, of the Texas Constitution.

The eight commissioners are appointed – four by the Governor, two by the Lieutenant Governor, and two by the Speaker of the Texas House of Representatives – via a process involving members of the Senate and House, representing the two major political parties, submitting lists of nominees to the appropriate state official for appointment. The commissioners serve for four-year terms. Additionally, Article III, Section 24a(c) of the Texas Constitution provides that “[a] member who has served for one term and any part of a second term is not eligible for reappointment.”

Importantly, certain commissioners remain in their position under the holdover provision, long awaiting replacement appointments. Specifically, please note the following expirations:

- Tom Harrison, gubernatorial appointee, expired November 2011.
- Bob Long, gubernatorial appointee, expired November 2015.
- Wilhelmina Deloc, Lt. Governor appointee, expired November 2015.
- Paul Hobby, Speaker appointee, expired November 2015.

The holdover provision is a safeguard preventing vacancies and ensuring continuation of functions, rather than serving as an undue extension of terms in office. Moreover, we have for some time been concerned with the use of the Texas Ethics Commission by certain elected officials as a vehicle to harass and silence the voice of the people during their participation in the political process. In fact, the Commission, during the course of the last couple of years, has found itself involved in at least eight lawsuits brought by citizens attempting to defend their rights.

Respectfully, we request that the matter of appointing commissioners to replace those who are sitting in expired terms be set as a priority action item. In so doing, we hope and trust that you will appoint Texans who will respect the guarantees embedded in the United States and Texas Constitutions regarding the ability of citizens to participate in the political process.

The Honorable Speaker of the Texas House of Representatives, Joe Straus

RE: Support House Bill 4236 and Senate Bill 2093

Dear Governor Abbott, Lieutenant Governor Patrick, and Speaker Straus:

As proud Texans, we are writing you today to ask that you join us in championing the free market and supporting true competition in the automobile industry for the benefit of Texans. As it states in the Republican Party of Texas platform: "We support allowing consumers in Texas to be able to purchase cars directly from manufactures." This language, supported by nearly 90 percent of GOP delegates at the 2016 State Convention, unambiguously reflects the strong support Direct Sales has from Texans across our great state.

Accordingly, we proudly support House Bill 4236 by Representative Isaac and Senate Bill 2093 by Senator Hall, which allow manufacturers of vehicles of any weight, class, size or shape to sell directly to Texas consumers.

During the last century, legislation was passed in Texas giving franchised auto dealers a legal monopoly on new car sales in the state, and at the time, lawmakers had their reasons for this consolidation. Today, however, our fellow Texans, who deserve every convenience the free market can provide them, are stuck in an expensive, antiquated model of buying new automobiles.

It is difficult to understand why in the year 2017, with so much focus in our state on economic development and the unmatched technological advances we've realized in nearly every area of our daily lives, Texas citizens are expected to purchase cars through a middleman; it benefits no one other than the dealers who profit off of this protectionist system. Texans are not only forced to buy new cars and trucks via this monopoly, they don't even enjoy the option of buying a vehicle directly from a manufacturer. While other industries are allowed to innovate and modernize, creating efficiencies, saving consumers money, and improving customer service, the Texas auto industry remains stuck in the past. Worst of all, they're relying on government protection to maintain their monopoly.

The advantages of Direct Sales are clear:

UNITE • EDUCATE • EMPOWER

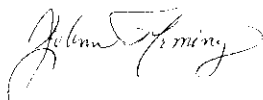

- It enhances the free market and bolsters economic freedom.
- It empowers consumers and gives them more choices.
- It saves consumers money on one of their biggest purchases.

Direct Sales will modernize how consumers buy new cars in Texas. By supporting Direct Auto Sales, you will be sending a clear message that you support eliminating protectionist regulations and agree that consumers, not the government, should decide how Texans buy new vehicles.

Thank you for the important work you do for our great state. Please continue this meaningful work by ensuring that millions of Texas citizens are afforded the opportunity to benefit from technological advances and modern conveniences when purchasing their next vehicle. Texas consumers want Direct Sales.

We respectfully ask for your support of HB 4236 and SB 2093.

**Texas Free Market Coalition**  
**An Open Letter to Mr. Warren Buffett**  
**RECEIVED**

April 24, 2017

APR 25 2017

Dear Mr. Buffett,

OOG/CCOM

Thank you for drawing attention to Texas' protectionist auto dealership laws. For decades, the auto dealership lobby has funneled millions of dollars into the campaign coffers of politicians who claim to be free market champions in order to protect dealer markups from the free market. **Welcome to the fight.**

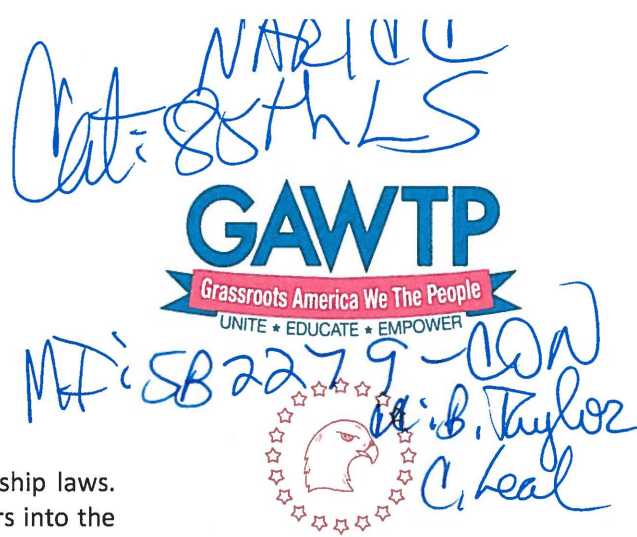

Unfortunately, we have concerns about your proposed solution. While we agree that ownership of an RV production facility should not preclude ownership of an auto dealership in Texas, your turbo-tracked SB 2279 by Texas Republican Sen. Kelly Hancock offers limited relief – much too limited.

Senator Hancock's bill relies upon what Ross Ramsey of the *Texas Tribune* called "the kind of distinction lawyers are paid to conjure" to allow a politically favored entity access to the Texas auto market. If this bill were to pass, Texas consumers would still be held hostage to the dealer markup of the auto sales lobby. **Too bad for us – right, Mr. Buffett?**

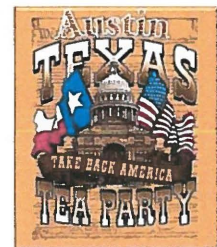

While other industries are allowed to innovate and modernize, creating efficiencies, saving consumers money, and improving customer service, the Texas auto industry remains stuck in the past. Worst of all, they rely on government protection to maintain their monopoly. **Yes, the reality is that most of our Texas politicians who claim to be free market champions are happy to engage in protectionism and to use our tax dollars to pick winners and losers.**

In picking winners and losers, politically directed allocation of capital impoverishes us all. As the Texas Public Policy Foundation explains in their 2016 publication *Policymaker's Guide to Corporate Welfare*: "proponents of corporate welfare suffer from a false belief in central planning. They believe that either they or government planners can best determine the [business model] that has the best chance of success, which jobs and products best supply society's needs, and where best to expend scarce supplies of capital. They believe that they just can't sit back and let the economy take care of itself; they have to take money and property from citizens in order to solve the citizens' problems for them." This special interest-laden intermingling of business and government inevitably begets fewer jobs and a higher cost of living.

Fortunately, Mr. Buffett, a better alternative exists. SB 2093 and HB 4236 have been filed in their respective chambers by free market champions Texas Sen. Bob Hall and Texas Rep. Jason Isaac. These direct sales bills would repeal the laws in question. **If those bills were to pass, you would be able to own dealerships in Texas, while Texas consumers would benefit from more options at lower prices.** It's a win/win or what economists call a "positive sum outcome."

Texas Eagle Forum

Unlike your special SB 2279, which was written, filed, and passed out of committee in three days' time – more than a month **AFTER** the official deadline for filing bills – these clean “no carve-out, no special perks” direct sales bills have been languishing in committees chaired by Texas Sen. Kelly Hancock and Texas Rep. John Keumpel. The opportunity still exists for these free market alternatives to cross Texas Gov. Greg Abbott's desk. **Your support for SB 2093 and HB 4236 would be greatly appreciated.**

Mr. Buffett, we are just ordinary Texans fighting to keep some of our hard-earned money through true free market choice, unhampered by government meddling. **Since you obviously have much more influence over our state officials than we do, we ask for your help in passing the direct sales bills that would benefit all Texans.**

Noted philanthropist that you are, your assistance in passing SB 2093 and HB 4236 in the Texas Legislature is eagerly awaited.

Sincerely, the undersigned supporters of a Texas Free Market,\*

The Honorable Greg Abbott  
Governor of Texas

Governor Abbott:

RECEIVED

MAY 31 2017

OOG/CCOM

***When it comes to getting their priorities passed in the Texas Legislature, the people of Texas deserve better,***

The leadership of the Texas House of Representatives once again thumbed their noses at taxpayers. No issue unifies Texans like our frustration with the burdensome – almost confiscatory – property tax system. Lt. Governor Dan Patrick and the Texas Senate demonstrated their support for property tax reform when, earlier in the session, they passed a comprehensive reform measure designed to put voters in charge of property taxes.

Last Saturday, the Republican-Democrat coalition in charge of the Texas House took what was already a watered down version of that Senate measure and turned it into little more than an expanded posting requirement before local governments can raise taxes on Texas families. The “big change” in the House bill was changing the name in law from the “effective rate” to the “no-new-revenue tax rate.”

***The 85<sup>th</sup> legislative session constitutes an epic failure on property tax reform.***

Next, we have the Privacy Act (SB6). Protecting the safety, dignity, and privacy of Texans from overreaching local governments is a critical issue with broad support among voters. **This has been a legislative priority for many pastors, conservative leaders, and citizens throughout the entire 85th legislative session.** Lt. Governor Patrick and the Senate responded, passing a comprehensive privacy act that would protect the safety, dignity, and privacy of all Texans in locker rooms, changing facilities, and bathrooms in public schools and other government buildings. It also protected private businesses from overreaching local ordinances.

After spending the majority of the 85th legislature obstructing and delaying SB 6, House leadership decided to pass a worthless and ineffectual amendment so they could claim credit and avoid a special session.

Now that the 85<sup>th</sup> Texas Legislature has adjourned, the People are left with no proper privacy protections for public school children (including those enrolled in dual credit courses at institutions of higher education) or conscience protections for business owners. ***The radical left is poised to double down on its agenda and will target our schools, cities, and private businesses because of this breathtaking failure of the legislature to protect the privacy, dignity, and safety of Texans. This must not stand!***

Finally, not one substantial election integrity or ballot security bill passed this session. This is particularly appalling since it has been discovered that ***neither the Texas Secretary of State nor any election official in any of our 254 counties is mandated by law to verify the driver's license or Social Security numbers used by individuals when they register to vote!*** In addition, the Secretary of State's Office has been issuing waivers allowing local election officials to avoid printing paper back-ups to electronic voting machines. This means there is no way to verify election results!

These facts, coupled with the mail-in ballot harvesting schemes uncovered by activists in the Dallas-Fort Worth Metroplex (and currently under investigation by the Texas Attorney General's Office), should have been plenty of incentive for the legislature to act to stamp out opportunities for voter fraud.

***Make no mistake – this is not a scheme that can be attributed to Democrats alone.*** We've seen enough to believe that there are Republican officials up to their eyeballs in election tampering. ***Wide-open opportunities for voter fraud aren't something Texans should be expected to tolerate until the 2019 legislature convenes.*** Voter fraud is not like accepting the rain ruining a picnic.

***The 85<sup>th</sup> legislative session was an alarming failure on the vitally important issues of election integrity and ballot security.***

Governor, while we take note of your praise for the progress made on ethics reform (that came late on the eve of Sine Die), we are greatly disappointed that the automatic revolving door of lawmakers to lobbyists is still in rotation; that lobbyists can still serve in elected office; and loopholes exploited by lobbyists are still there hiding the extent to which public officials are wined and dined by lobbyists – who, more often than not, are diametrically opposed to a wide array of conservative principles.

When running for office, Republicans do a lot of talking about conservative values, but with Republicans in charge of every branch of state government, the unfinished business of this legislative session is unacceptable. ***The people of Texas deserve better.***

They deserve property tax relief, safety, dignity, and privacy in the most intimate settings, the highest ethics for state government officials, and the peace of mind that election results are dependable and verifiable.

We strongly agree with your statements, Governor Abbott, that, "voter fraud must be eradicated," that "we must do all we can to help women have privacy, safety and security to the fullest extent," and that we must also secure "real constraints on the rise in property taxes on our fellow Texans."

Governor, we respectfully submit to you that none of these issues can wait until the 2019 Legislative Session. We therefore ask you to respect the people of Texas, make good on your declared legislative priorities, and make plans to

call a special session of the Texas Legislature to complete this important unfinished business for the People. ***Anything less is unacceptable.***

Texas Grassroots Coalition

Strong Support for Grid Security for Special Session

Relating to the protection of energy-critical infrastructure from electromagnetic, geomagnetic, terroristic, and cyber-attack threats.

May 30, 2017

The Honorable Greg Abbott  
Governor of Texas

RECEIVED

MAY 31 2017

OOG/CCOM

Dear Governor Abbott:

Another critical piece of unfinished legislative business important to the life and economic prosperity in Texas is grid security. This is the second session we've worked to get a grid security bill passed, but it seems the voice of the lobbyists is once again louder than ours.

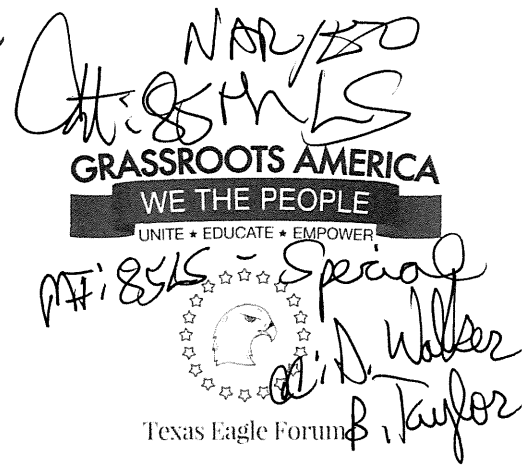

Although the bulk of political support for grid security has come from Republicans, we were delighted to see that Senator John Whitmire (D) – the Dean of the Texas Senate – was a co-author of Senator Hall's SB 83. In addition, on February 1, 2017, the US House Energy and Commerce Committee's Ranking Member, Congressman Frank Pallone, Jr. (D-NJ), spoke about the importance of continued improvements to our nation's efforts to defend against cybersecurity threats to the electricity grid, saying, "**I consider grid security to be a top tier national security concern.**"

As you are well aware, Governor, the 2016 Texas GOP Platform, page 17, section 155, states, "We urge that the Texas Legislature pass legislation to harden the Texas Electric Grid against:

1. Cyber-attacks on the grid's computerized command and control system.
2. Physical attacks on substations and major high voltage transformers.
3. Geomagnetic storms created by solar flares from the sun.
4. Electromagnetic Pulse (EMP)."

The 2016 National Republican Party Platform agrees, "The grid is aging, vulnerable to cyber and terrorist threats, and unprepared to serve our energy needs of tomorrow."

Finally, on November 21, 2016, President-Elect Donald Trump stated that he would ask "the Department of Defense and the Chairman of the Joint Chiefs of Staff to develop a comprehensive plan to protect America's vital infrastructure from cyber-attacks and all other forms of attacks."

Although we have cited support from both the left and the right of the political spectrum, **the safety, security, and economic well-being of Texans is not a Republican, nor a Democratic issue – it is an issue vitally important to ALL Texans.**

Rapidly accelerating technology, the proliferation of “black hat hackers,” and today’s volatile geo-political environment, have significantly elevated the threat of a catastrophic Electro Magnetic Pulse (EMP) event or a terroristic assault in the form of a cyber-attack or an act of sabotage that could dramatically and irreversibly change life as we know it. While this is a nationwide threat, Texas stands alone in its ability to protect the Texas electrical grid from this threat because Texas is the only state with an electrical grid that is essentially isolated from other states.

At a lunch meeting with Texas Senators last week, US Department of Energy Secretary Rick Perry spoke about the urgency to secure the grid. ***We agree with Secretary Perry and cannot understand why there is not a strong sense of urgency to move forward to protect the Texas grid from terrorists, rogue nations, and naturally occurring geo-magnetic storms.***

Governor, we respectfully ask that you send a signal to special interests that you value the lives and economic livelihood of Texans over their objections. Please put grid security on the call for a special session. ***Lives depend on getting this right.***

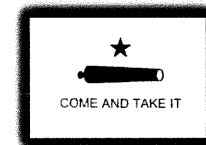

The undersigned strongly support Senator Bob Hall’s grid security bill (SB 83), which will propel Texas forward in the urgent mission to strengthen, harden, and protect our electrical grid against natural-occurring and manmade attacks.

**130 Political Opinion Leaders,  
Representing 92 Unique Organizations & Districts  
Speak Out to Save Texas Monuments**

March 11, 2019

The Honorable Texas Lieutenant Governor Dan Patrick  
The Honorable Sen. Joan Huffman, Chairman, Senate State Affairs Committee  
The Honorable Sen. Bryan Hughes, Vice-Chair, Senate State Affairs Committee  
**Senate Committee on State Affairs, Republican Members:**  
The Honorable Sen. Brian Birdwell  
The Honorable Sen. Brandon Creighton  
The Honorable Sen. Pat Fallon, author, Texas Historical Protection Act [SB 226](#)  
The Honorable Sen. Bob Hall  
The Honorable Sen. Jane Nelson

The Honorable Texas House Speaker Dennis Bonnen  
The Honorable State Representative Kyle Biedermann, author of [HB 2648](#)  
The Honorable State Representative James White, author of [HB 583](#)

Dear State Elected Officials:

***"Those that cannot remember the past are condemned to repeat it."***  
**George Santayana (1863-1952)**

The American Left has been on a political correctness jihad over the last several years. As a result, conservative speakers are attacked at college campuses, careers and reputations of those deemed "politically incorrect" are destroyed, and historical monuments are being pulled down, censored, and hidden all across the country.

Indeed, just like the Taliban, the radical Left is bent on destroying religious monuments and statues all across America. These monuments range from military veterans' memorials to the founding spiritual figures and murals in Ivy League colleges. The Left's appetite for censorship and groupthink has also expanded into secular historical representations of Christopher Columbus and Confederate statues and monuments.

Texas Eagle Forum

Unfortunately, Texas has not escaped the Left's purge of history. Urban areas such as Houston, Dallas, San Antonio, and Austin have targeted many Civil War era statues and monuments. Recently, the Dallas City Council voted to remove the city's oldest public monument, the Confederate War Memorial in Dallas Pioneer Park Cemetery. In 2017, the city council removed a statue of Robert E. Lee that had stood for 81 years after being dedicated by Franklin Delano Roosevelt, a Democratic President. Fortunately, the city still requires the approval of the Landmark Commission in order to "[Take it down](#)" as one council member demanded. Ignoring the value of history to correct mistakes of the past, the Dallas City Council is implementing an agenda that would erase historical figures and events that they find distasteful and unseemly.

In fact, the appetite to remove historical sites and memorials has spread past Confederate War statues to two of Texas' most cherished landmarks – the Alamo and the Alamo Cenotaph (also known as the *Spirit of Sacrifice*), which commemorates the fallen heroes of the Alamo Battle in their fight for independence from the centralist government of Mexico. [The San Antonio City Council](#) voted unanimously to return the Alamo to a **pre-battle state** and **relocate the Cenotaph memorial to a more obscure location**.

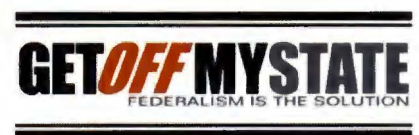

Opponents of the city council's plan to emphasize the Alamo complex prior to the famous battle for Texas independence fear that **millions of visitors who come to the Alamo will not garner a true understanding of the Texas spirit if the Texas Alamo Defenders are de-emphasized and hidden**.

The Texas Conservative Grassroots Coalition puts its opposition to the City of San Antonio's plan (endorsed and supported by Texas Land Commissioner George P. Bush) this way – ***Their plan is nothing less than an attempt to erase the history of Texas Independence and demonstrates callous, flagrant disrespect for the Alamo Freedom Fighters.***

The Texas Conservative Grassroots Coalition calls for the Lieutenant Governor, Texas Speaker of the House, and the Senate State Affairs Committee to protect Texas monuments and statues by supporting [SB 226](#) (Fallon) the **Texas Historical Protection Act** and its companion [HB 2648](#) (Biedermann). We also urge you to support [HB 583](#), the **Texas Hero Protection Act** as authored by Rep. James White.

The Coalition specifically calls on Senator Pat Fallon to file the necessary background and hearing requests to **move SB 226** in the State Affairs Committee, thereby standing and fighting for his campaign promise to protect Texas monuments and history.

Recently, an [independent poll](#) was taken to gauge public reaction to protecting

Confederate monuments. This poll specifically asked the tough questions regarding Confederate monuments to distinguish them from the more universally loved Texas Independence monuments and memorials. The poll found that Texans back monument protection with 64% “for” and 26% “against.” In fact, poll results show 60% of Hispanics and 35% of African-Americans support protecting Texas’ Confederate monuments. Indeed, **the Texas Hero Protection Act** was filed by Rep. James White (R-HD 19), a five-term, African-American member of the Texas House. **White’s HB 583 is an effort to preserve and protect Texas historical monuments and memorials – no matter the contemporaneous social norms of today as applied to a historical figure of the past.**

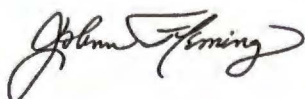

Statues, memorials, and monuments are expressions of a past generation’s free speech. To silence the First Amendment Rights of the past is to silence discussion of those historical eras and the cultural, moral, and political results of those times. Texas should not hide or erase historical figures because today’s culture rejects a past society’s practices, customs, and norms. Indeed, Texas should seek to educate future generations about The Great Cause of Liberty for all mankind with factual historical examples – both good and bad.

**Texans should not allow political demagogues to erase history in order to score political points.** Note that these decisions are never the result of a vote by the people, but typically are the result of a liberal city council’s agenda. **The vast majority of the citizens never hear about the efforts to remove a statue until it is too late.**

We end this Coalition appeal to you with a recent example of principled courage that took place in Alabama. When Alabama officials set about removing Confederate flags, statues and monuments at a frenetic pace, Alabama Governor Kay Ivey signed into law the [Alabama Memorial Preservation Act of 2017](#), intended to preserve ALL of Alabama’s history. Not only did this Governor have the courage to sign the bill, she released [political ads](#) crediting herself for protecting Alabama’s historic monuments. ***Surely, our Texas leaders have a similar courage to step up and fight to protect this great state’s heritage and freedom.***

The Texas Conservative Grassroots Coalition asks that the Texas Legislature honor the public expressions of past generations of Texans by supporting and passing legislation to protect our state’s statues and monuments.

Sincerely, the undersigned grassroots political leaders, \*

EMPOWERTEXANS

April 12, 2019

The Honorable Greg Abbott  
Governor of Texas

**RE: Permanent Property Tax Relief**

Dear Governor Abbott:

With billions in excess revenue flowing into state coffers over the next two years, Texas lawmakers have an unprecedented opportunity to provide **permanent property tax relief** to all Texas families, but rather than return money to taxpayers in the form of meaningful property tax relief, legislators have gone on a spending spree.

According to an analysis by the Texas Public Policy Foundation, the Texas House plan for spending (HB1) is up 13.8% in all funds (all state funds + federal funds) and 14.4% in just state funds (**excluding Harvey recovery dollars**), meaning both far exceed the [Conservative Texas Budget limits](#) of 8% in population growth plus inflation. The Senate's budget at \$239.1 billion, excluding Harvey money and including supplemental appropriations, is up 10 percent in total, also above the Conservative Texas Budget limit, but closer than the House's budget.

So far, this legislative session, little has been done to protect taxpayers or encourage conservatives to fight for Republicans in 2020. **We call on you to demand better of our Republican legislators before they surrender the state to Democrat control.**

***Republican lawmakers have a choice; spend the new windfall and grow government or return it to taxpayers in the form of lower school tax bills.***

Texas Eagle Forum

Unfortunately, current proposals, such as House Bill 3, plan to spend up to 70 percent of this surplus on higher spending, rather than on reducing school property tax bills. That's \$6.3 billion in new public education spending *in addition to* another \$2 billion to pay for student enrollment growth.

Only 30 percent—or \$2.7 billion of the \$9 billion of new state spending—would go toward reducing local school property tax rates by an average of 4 cents per \$100 of property valuation. For a Texan with a \$200,000 home, they could see annual savings of \$80; however, **if their appraisal value increases 3 percent or more over the next two years, homeowners will never see or feel permanent tax relief.**

As proposed by the Texas Public Policy Foundation, Republican lawmakers should pass a bill that would force the State of Texas to make relief permanent, by **dedicating 90 percent of all surplus state revenue to lowering school tax bills.**

In addition to failing to propose significant and permanent tax relief, Republican lawmakers are not pushing to phase out the unfair and unpopular wealth redistribution scheme known as the “Robin Hood” property tax, which overtaxes an increasing number of Texas families each year.

While lawmakers supporting HB 3 claim it would “reduce Robin Hood recapture by 38 percent,” their own numbers prove this to be false. HB 3 would only *prevent recapture from increasing*; **it would *not* reduce recapture!**

According to the Texas Education Agency, total recapture statewide was **\$4.74 billion** in the 2018-19 biennium. Upon passage of HB 3, recapture would remain flat at **\$4.7 billion** over the next two years (2020-2021).

Governor, along with Lt. Governor Dan Patrick and House Speaker Dennis Bonnen, you have supported an important property tax *reform* to help slow the growth of property tax bills. A necessary component of any such reform is empowering taxpayers with more control over tax burdens by requiring cities, counties, and school districts to obtain voter approval for annual tax hikes of 2.5 percent or more – a policy supported by 77 percent of Texans (Quinnipiac University poll released 02.26.19). These tax hike elections must be required to be held on a November uniform election date.

***But property tax reform is not enough. Slowing the growth of stifling tax bills is not enough.***

***Texans are taxed enough already and will not be satisfied with lawmakers if they merely protect the status quo. Texans want, need, and deserve a net reduction in their property tax bills, and the state has the money through existing revenue streams to provide permanent tax relief, without raising new taxes or fees.***

We call on you to push Republican lawmakers to pass property tax reform (SB2/HB2) with the 2.5 percent rollback rate applied to **every local taxing entity** in the state—including school districts—and require automatic November tax ratification elections. **We strongly oppose any effort to water down the legislation.**

We recognize that whether funding comes from state coffers or local coffers, it all ultimately comes from the wallets of taxpayers. Statewide, property tax increases have greatly outpaced the average taxpayer's ability to pay. From 2012 to 2017, **local property tax revenues soared by almost 40 percent across the entire state**, according to the Comptroller's Biennial Property Tax Report. That's well above population growth and inflation increases, which rose just 15.3 percent.

We call on Republican lawmakers to pass permanent tax relief by increasing the state's share of public education spending. *A majority* of surplus state revenue—\$4.6 billion, or more—should be dedicated to buying down school M&O property tax rates.

Likewise, we also call on Republican lawmakers to make property tax relief permanent, by amending law to require that 90 percent of future surplus state revenue be dedicated to lowering school M&O property taxes, until it's entirely repealed. Once repealed, Robin Hood would be eliminated, and the average Texan would see a 40 percent reduction in their total property tax burden.

Governor Abbott, whether this session will be remembered as one in which legislators delivered on long-made promises to taxpayers ***or marked the end of Republican control of the Texas legislature, it rests in your hands.*** We are counting on you.

Respectfully, the undersigned Texas grassroots political leaders, \*

Re: Request for Veto of SB 11, HB18, HB19

Dear Governor Abbott,

We are a coalition of groups and individuals, some partisan and non-partisan, who have come together in opposition to Senate Bill 11 and House Bills 18 and 19.

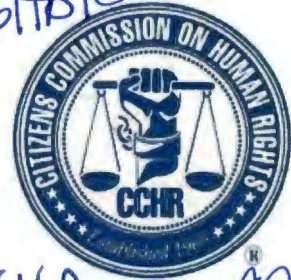

We greatly appreciate your efforts to make schools safer. Regrettably, we cannot support these bills. SB 11 contained several features that directly addressed school safety. However, it also had provisions of concern. While some groups attempted to get these concerns addressed, the bill was only made worse.

**We believe that the use of a psychiatric consortium that has inherent connections to the pharmaceutical industry simply puts Texas children at risk of dangerous psychotropic drugging and policies that lead to same.**

As Attorney General you sued numerous drug companies over illegal marketing schemes. We know you are well aware of just how far drug companies can reach into our state programs. In 2012 you settled a lawsuit with Johnson & Johnson related to the marketing of an antipsychotic drug for unapproved populations including children.<sup>1</sup> This was done under the Texas Medication Algorithm Project. Several faculty members from UT medical schools were involved. In other instances, state employees resigned from their jobs over allegations that they worked with drug companies to promote their product in state programs.<sup>2</sup>

We do not believe a mental health consortium is necessary to school safety. That it is composed of the psychiatry departments of our medical schools; and as our medical schools work closely with pharmaceutical companies, this creates a conflict that cannot be cured.

AMERICAN  
OVERSIGHT  
Log under JoAnn Fleming

**Assessment for “potential” danger is unreliable, will create injustice**

The idea that one could pinpoint those who will “potentially” become dangerous and then get them the “help they need” is abhorrent to us. ***No one can predict evil.*** Even if they could, there is nothing to suggest that mental health treatment can prevent it. Absent an immediate and obvious threat, there is no screening, assessment, or interview that can dependably predict future dangerousness. Even the American Psychiatric Association has stated that when it comes to long term predictions of future dangerousness, they get it wrong in at least two out of three cases.<sup>3</sup>

***How many innocent children will be labeled as potential threats and then deprived of precious liberties?***

A mental health supervisor for Austin Independent School District’s campus police testified on HB10 that AISD alone had referred over 875 students to Child Protective Services over mental health issues so far this school year. In questioning, it sounded like many of these cases revolved around differences of opinion with parents.

**We believe that foster children, special needs children, and children of color will be especially vulnerable to such programs because of biases and stereotypes.**

**Threat Assessments Are Subjective: Therefore, Mistakes Will Be Made - These Are Not Harmless**

Using Threat Assessment Teams to scrutinize children, question children, and offer subjective assessments of risk, without providing true information on the frailties of such assessments, and without full Miranda warnings is an affront to parental and civil rights. The fact that the Texas School Safety Center website features at least one model from another state in which everyone, including the child, is questioned ***before the child’s parents are brought in*** make the prospect of Threat Assessment Teams even more disturbing.<sup>4</sup>

We would remind you that Nikolas Cruz was apparently the subject of a threat assessment AND mental health treatment.<sup>5</sup> This certainly did not prevent the Parkland shooting.

Mental screening for “at-risk” students is notoriously inaccurate with false positive rates as high as 84%.<sup>6</sup> What defines “at risk”? The problem with mental screening in general and with labeling “at-risk” children with a psychiatric label is that the already admittedly subjective diagnostic criteria are even more difficult to apply to children. The World Health Organization (not known as a conservative group) has said: “Childhood and adolescence being developmental phases, it is difficult to draw clear boundaries between phenomena that are part of normal development and others that are abnormal.”<sup>7</sup>

<sup>3</sup><https://www.psychiatry.org/File%20Library/Psychiatrists/Directories/Library-and-Archive/amicus-briefs/amicus-1982-barefoot.pdf>

<sup>4</sup><https://static1.squarespace.com/static/55674542e4b074ead07152ba/v/5b442226562fa7de6f5bc38/1531191846207/LAUSD+Threat+Assessment+CHECKLIST.305182908.pdf>

<sup>5</sup><https://www.sun-sentinel.com/local/broward/parkland/florida-school-shooting/fl-ne-nikolas-cruz-threat-assessment-20190124-story.html>

<sup>6</sup><https://thenationalpulse.com/commentary/parents-beware-mentalscreening-students-ramps-up-texas/>

<sup>7</sup><https://thenationalpulse.com/commentary/turning-teachers-psychotherapists-will-not-prevent-schoolshootings/>, <http://edlibertywatch.org/wp-content/uploads/2018/10/School-Safety-Memo-to-Commission.pdf>

**THE  
RUTHERFORD  
INSTITUTE**

***We believe that as a result of this mental health approach, perfectly normal children will be given subjective mental health labels, or viewed as potential threats, affecting their rights now and in the future.***

#### **Mental Health Education is problematic**

We believe that mental health education, as envisioned in SB11 and HB18, is more likely to become an indoctrination tool, a marketing tool, than it is to help children. There are at least two major cases in Texas where books, coloring books, or similar materials were used to either fill hospital beds or steer children toward medication.<sup>8,9</sup> In addition, some schools are using mindfulness programs that include practices one would associate with Eastern religious practices. This is objectionable to some families. **We believe parents, families, and their care providers are best positioned to provide unbiased information, and to decide when or if their children are ready for that discussion.**

#### **Psychotropic Drugs, Suicide and Violence**

Multiple school shooters and other perpetrators of mass violence have been under the influence of psychotropic drugs or withdrawing from them.<sup>10</sup> Many drugs are associated with risk of suicidal thoughts or behaviors, aggression, hostility, agitation or other violent effects. While legislation was filed that would have at least explored psychotropic drugs in relation to suicide, it went nowhere. We do not support legislation that could exacerbate the problem.

#### **Opening Schools to Private Mental Health Providers Invites Fraud, Abuse**

HB18 supports the idea of schools partnering with private mental health providers for those services. This is not otherwise defined. As the bill author filed another bill allowing hospitals to run school mental health clinics, we can only assume HB18 includes private psychiatric hospitals. **At this time, a psychiatric hospital company in Arlington is under a criminal indictment alleging, among other things, that patients were illegally held against their will.**<sup>11</sup> Other hospitals are under suit over similar issues.<sup>12</sup> Our nation's largest chain of psychiatric hospitals is being sued by stockholders alleging similar behavior.<sup>13</sup> This chain of hospitals has 15 psychiatric hospitals licensed in Texas, plus other facilities under different licensure. In 1992, Texas State Senator Mike Moncrief testified that private psych hospitals in Texas had entered into arrangements with Texas schools to provide counseling services and then referred students for inpatient treatment.<sup>14</sup> **We do not want our children to become cash cows for fraudulent schemes.**

<sup>8</sup> Texas State Senator Mike Moncrief, Congressional testimony, 1992

### In Summary

We believe vigilance, hardened campuses and other direct measures, not mental health, not subjective risk assessments would better improve school safety.

We believe that families, their chosen communities, and their churches are charged with our children's social, emotional, and moral education. There has been increasing controversy over schools teaching about family values, relationships, belief systems or behaviors. Transparency has also been a problem. We do not support legislation that would allow our role, our God given duty, to be undermined by the state.

We recognize that some families may choose psychiatric treatments, including drugs, for their children. We do not believe it is in the best interest of the state or our children for these services to be promoted in schools. This is a family matter.

We believe these bills open up our schools and Texas's children to fraud and abuse.

We believe these bills favor industry, not families.

Four times as many teens in the U.S. die from accidents as from suicide.<sup>15</sup> Nearly four times as many die from accidents as from homicide.<sup>16</sup> Therefore we find it curious that our state is spending hundreds of millions in these bills for suicide and violence prevention, and not one dime for accident prevention. We want to know why.

We believe that these bills feed into further data on our children being collected and shared.

We believe that these bills codify unsettled science, with no consensus, such as trauma informed care and adverse childhood experiences, into law.

We want our schools to return to their original intent with the focus on academics – reading, writing, mathematics. Let parents and families decide what their children need. Let our churches, communities, and private doctors be the ones we go to when we need help.

<sup>15</sup> <https://www.cdc.gov/nchs/products/databriefs/db37.htm>

<sup>16</sup> Ibid

**We believe that the issue of school safety needs more seats at the table, and must involve a diversity of views from parents, faith-based counselors, ministers and groups concerned with our liberties to discuss what is best for our children. These bills do not reflect that diversity.**

**Therefore, we request that SB11, HB18, and HB19 be vetoed.**

**Signed, concerned community and opinion leaders, \***

# Coalition United in Strong Opposition to SB 11, HB 18, HB 19

The Honorable Governor Greg Abbott  
Office of the Governor  
P.O. Box 12428  
Austin, Texas 78711-2428

May 29, 2019

**Re: Request for Veto of SB 11, HB18, HB19**

Dear Governor Abbott,

We are a coalition of groups and individuals, some partisan and non-partisan, who have come together in opposition to Senate Bill 11 and House Bills 18 and 19.

We greatly appreciate your efforts to make schools safer. Regrettably, we cannot support these bills. SB 11 contained several features that directly addressed school safety. However, it also had provisions of concern. While some groups attempted to get these concerns addressed, the bill was only made worse.

**We believe that the use of a psychiatric consortium that has inherent connections to the pharmaceutical industry simply puts Texas children at risk of dangerous psychotropic drugging and policies that lead to same.**

As Attorney General you sued numerous drug companies over illegal marketing schemes. We know you are well aware of just how far drug companies can reach into our state programs. In 2012 you settled a lawsuit with Johnson & Johnson related to the marketing of an antipsychotic drug for unapproved populations including children.<sup>1</sup> This was done under the Texas Medication Algorithm Project. Several faculty members from UT medical schools were involved. In other instances, state employees resigned from their jobs over allegations that they worked with drug companies to promote their product in state programs.<sup>2</sup>

We do not believe a mental health consortium is necessary to school safety. That it is composed of the psychiatry departments of our medical schools; and as our medical schools work closely with pharmaceutical companies, this creates a conflict that cannot be cured.

**Assessment for “potential” danger is unreliable, will create injustice**

The idea that one could pinpoint those who will “potentially” become dangerous and then get them the “help they need” is abhorrent to us. ***No one can predict evil.*** Even if they could, there is nothing to suggest that mental health treatment can prevent it. Absent an immediate and obvious threat, there is no screening, assessment, or interview that can dependably predict future dangerousness. Even the American Psychiatric Association has stated that when it comes to long term predictions of future dangerousness, they get it wrong in at least two out of three cases.<sup>3</sup>

***How many innocent children will be labeled as potential threats and then deprived of precious liberties?***

A mental health supervisor for Austin Independent School District’s campus police testified on HB10 that AISD alone had referred over 875 students to Child Protective Services over mental health issues so far this school year. In questioning, it sounded like many of these cases revolved around differences of opinion with parents.

**We believe that foster children, special needs children, and children of color will be especially vulnerable to such programs because of biases and stereotypes.**

**Threat Assessments Are Subjective: Therefore, Mistakes Will Be Made - These Are Not Harmless**

Using Threat Assessment Teams to scrutinize children, question children, and offer subjective assessments of risk, without providing true information on the frailties of such assessments, and without full Miranda warnings is an affront to parental and civil rights. The fact that the Texas School Safety Center website features at least one model from another state in which everyone, including the child, is questioned ***before the child’s parents are brought in*** make the prospect of Threat Assessment Teams even more disturbing.<sup>4</sup>

We would remind you that Nikolas Cruz was apparently the subject of a threat assessment AND mental health treatment.<sup>5</sup> This certainly did not prevent the Parkland shooting.

Mental screening for “at-risk” students is notoriously inaccurate with false positive rates as high as 84%.<sup>6</sup> What defines “at risk”? The problem with mental screening in general and with labeling “at-risk” children with a psychiatric label is that the already admittedly subjective diagnostic criteria are even more difficult to apply to children. The World Health Organization (not known as a conservative group) has said: “Childhood and adolescence being developmental phases, it is difficult to draw clear boundaries between phenomena that are part of normal development and others that are abnormal.”<sup>7</sup>

**THE  
RUTHERFORD  
INSTITUTE**

**FAMILY RIGHTS  
ADVOCACY**

*We believe that as a result of this mental health approach, perfectly normal children will be given subjective mental health labels, or viewed as potential threats, affecting their rights now and in the future.*

#### **Mental Health Education is problematic**

We believe that mental health education, as envisioned in SB11 and HB18, is more likely to become an indoctrination tool, a marketing tool, than it is to help children. There are at least two major cases in Texas where books, coloring books, or similar materials were used to either fill hospital beds or steer children toward medication.<sup>8,9</sup> In addition, some schools are using mindfulness programs that include practices one would associate with Eastern religious practices. This is objectionable to some families. **We believe parents, families, and their care providers are best positioned to provide unbiased information, and to decide when or if their children are ready for that discussion.**

#### **Psychotropic Drugs, Suicide and Violence**

Multiple school shooters and other perpetrators of mass violence have been under the influence of psychotropic drugs or withdrawing from them.<sup>10</sup> Many drugs are associated with risk of suicidal thoughts or behaviors, aggression, hostility, agitation or other violent effects. While legislation was filed that would have at least explored psychotropic drugs in relation to suicide, it went nowhere. We do not support legislation that could exacerbate the problem.

#### **Opening Schools to Private Mental Health Providers Invites Fraud, Abuse**

HB18 supports the idea of schools partnering with private mental health providers for those services. This is not otherwise defined. As the bill author filed another bill allowing hospitals to run school mental health clinics, we can only assume HB18 includes private psychiatric hospitals. **At this time, a psychiatric hospital company in Arlington is under a criminal indictment alleging, among other things, that patients were illegally held against their will.**<sup>11</sup> Other hospitals are under suit over similar issues.<sup>12</sup> Our nation's largest chain of psychiatric hospitals is being sued by stockholders alleging similar behavior.<sup>13</sup> This chain of hospitals has 15 psychiatric hospitals licensed in Texas, plus other facilities under different licensure. In 1992, Texas State Senator Mike Moncrief testified that private psych hospitals in Texas had entered into arrangements with Texas schools to provide counseling services and then referred students for inpatient treatment.<sup>14</sup> **We do not want our children to become cash cows for fraudulent schemes.**

<sup>8</sup> Texas State Senator Mike Moncrief, Congressional testimony, 1992

### In Summary

We believe vigilance, hardened campuses and other direct measures, not mental health, not subjective risk assessments would better improve school safety.

We believe that families, their chosen communities, and their churches are charged with our children's social, emotional, and moral education. There has been increasing controversy over schools teaching about family values, relationships, belief systems or behaviors. Transparency has also been a problem. We do not support legislation that would allow our role, our God given duty, to be undermined by the state.

We recognize that some families may choose psychiatric treatments, including drugs, for their children. We do not believe it is in the best interest of the state or our children for these services to be promoted in schools. This is a family matter.

We believe these bills open up our schools and Texas's children to fraud and abuse.

We believe these bills favor industry, not families.

Four times as many teens in the U.S. die from accidents as from suicide.<sup>15</sup> Nearly four times as many die from accidents as from homicide.<sup>16</sup> Therefore we find it curious that our state is spending hundreds of millions in these bills for suicide and violence prevention, and not one dime for accident prevention. We want to know why.

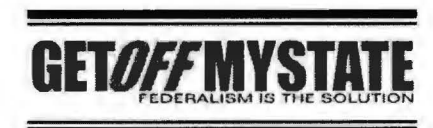

We believe that these bills feed into further data on our children being collected and shared.

We believe that these bills codify unsettled science, with no consensus, such as trauma informed care and adverse childhood experiences, into law.

We want our schools to return to their original intent with the focus on academics – reading, writing, mathematics. Let parents and families decide what their children need. Let our churches, communities, and private doctors be the ones we go to when we need help.

<sup>15</sup> <https://www.cdc.gov/nchs/products/databriefs/db37.htm>

<sup>16</sup> *ibid*

We believe that the issue of school safety needs more seats at the table, and must involve a diversity of views from parents, faith-based counselors, ministers and groups concerned with our liberties to discuss what is best for our children. These bills do not reflect that diversity.

Therefore, we request that SB11, HB18, and HB19 be vetoed.

Signed, concerned community and opinion leaders, \*

Texas Grassroots Coalition:

Unfinished Business Important to the People of Texas

May 30, 2017

The Honorable Greg Abbott  
Governor of Texas

Governor Abbott:

RECEIVED

JUN 20 2017

OOG/CCOM

GRASSROOTS AMERICA

WE THE PEOPLE

UNITE • EDUCATE • EMPOWER

EMPOWER TEXANS

***When it comes to getting their priorities passed in the Texas Legislature, the people of Texas deserve better,***

The leadership of the Texas House of Representatives once again thumbed their noses at taxpayers. No issue unifies Texans like our frustration with the burdensome – almost confiscatory – property tax system. Lt. Governor Dan Patrick and the Texas Senate demonstrated their support for property tax reform when, earlier in the session, they passed a comprehensive reform measure designed to put voters in charge of property taxes.

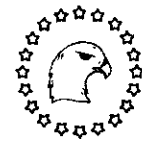

Last Saturday, the Republican-Democrat coalition in charge of the Texas House took what was already a watered down version of that Senate measure and turned it into little more than an expanded posting requirement before local governments can raise taxes on Texas families. The “big change” in the House bill was changing the name in law from the “effective rate” to the “no-new-revenue tax rate.”

***The 85<sup>th</sup> legislative session constitutes an epic failure on property tax reform.***

Next, we have the Privacy Act (SB6). Protecting the safety, dignity, and privacy of Texans from overreaching local governments is a critical issue with broad support among voters. **This has been a legislative priority for many pastors, conservative leaders, and citizens throughout the entire 85th legislative session.** Lt. Governor Patrick and the Senate responded, passing a comprehensive privacy act that would protect the safety, dignity, and privacy of all Texans in locker rooms, changing facilities, and bathrooms in public schools and other government buildings. It also protected private businesses from overreaching local ordinances.

After spending the majority of the 85th legislature obstructing and delaying SB 6, House leadership decided to pass a worthless and ineffectual amendment so they could claim credit and avoid a special session.

Now that the 85<sup>th</sup> Texas Legislature has adjourned, the People are left with no proper privacy protections for public school children (including those enrolled in dual credit courses at institutions of higher education) or conscience protections for business owners. ***The radical left is poised to double down on its agenda and will target our schools, cities, and private businesses because of this breathtaking failure of the legislature to protect the privacy, dignity, and safety of Texans. This must not stand!***

Texas Eagle Forum

Finally, not one substantial election integrity or ballot security bill passed this session. This is particularly appalling since it has been discovered that *neither the Texas Secretary of State nor any election official in any of our 254 counties is mandated by law to verify the driver's license or Social Security numbers used by individuals when they register to vote!* In addition, the Secretary of State's Office has been issuing waivers allowing local election officials to avoid printing paper back-ups to electronic voting machines. This means there is no way to verify election results!

These facts, coupled with the mail-in ballot harvesting schemes uncovered by activists in the Dallas–Fort Worth Metroplex (and currently under investigation by the Texas Attorney General's Office), should have been plenty of incentive for the legislature to act to stamp out opportunities for voter fraud.

***Make no mistake – this is not a scheme that can be attributed to Democrats alone.*** We've seen enough to believe that there are Republican officials up to their eyeballs in election tampering. ***Wide-open opportunities for voter fraud aren't something Texans should be expected to tolerate until the 2019 legislature convenes.*** Voter fraud is not like accepting the rain ruining a picnic.

***The 85<sup>th</sup> legislative session was an alarming failure on the vitally important issues of election integrity and ballot security.***

Governor, while we take note of your praise for the progress made on ethics reform (that came late on the eve of Sine Die), we are greatly disappointed that the automatic revolving door of lawmakers to lobbyists is still in rotation; that lobbyists can still serve in elected office; and loopholes exploited by lobbyists are still there hiding the extent to which public officials are wined and dined by lobbyists – who, more often than not, are diametrically opposed to a wide array of conservative principles.

When running for office, Republicans do a lot of talking about conservative values, but with Republicans in charge of every branch of state government, the unfinished business of this legislative session is unacceptable. ***The people of Texas deserve better.***

They deserve property tax relief, safety, dignity, and privacy in the most intimate settings, the highest ethics for state government officials, and the peace of mind that election results are dependable and verifiable.

We strongly agree with your statements, Governor Abbott, that, "voter fraud must be eradicated," that "we must do all we can to help women have privacy, safety and security to the fullest extent," and that we must also secure "real constraints on the rise in property taxes on our fellow Texans."

**Governor, we respectfully submit to you that none of these issues can wait until the 2019 Legislative Session.** We therefore ask you to respect the people of Texas, make good on your declared legislative priorities, and make plans to

call a special session of the Texas Legislature to complete this important unfinished business for the People. *Anything less is unacceptable.*

## Strong Support for Grid Security for Special Session

Relating to the protection of energy-critical infrastructure from electromagnetic, geomagnetic, terroristic, and cyber-attack threats.

May 30, 2017

The Honorable Greg Abbott  
Governor of Texas

RECEIVED

JUN 20 2017

OOG/CCOM

Texas Eagle Forum

Dear Governor Abbott:

Another critical piece of unfinished legislative business important to the life and economic prosperity in Texas is grid security. This is the second session we've worked to get a grid security bill passed, but it seems the voice of the lobbyists is once again louder than ours.

Although the bulk of political support for grid security has come from Republicans, we were delighted to see that Senator John Whitmire (D) – the Dean of the Texas Senate – was a co-author of Senator Hall's SB 83. In addition, on February 1, 2017, the US House Energy and Commerce Committee's Ranking Member, Congressman Frank Pallone, Jr. (D-NJ), spoke about the importance of continued improvements to our nation's efforts to defend against cybersecurity threats to the electricity grid, saying, "*I consider grid security to be a top tier national security concern.*"

As you are well aware, Governor, the 2016 Texas GOP Platform, page 17, section 155, states, "We urge that the Texas Legislature pass legislation to harden the Texas Electric Grid against:

1. Cyber-attacks on the grid's computerized command and control system.
2. Physical attacks on substations and major high voltage transformers.
3. Geomagnetic storms created by solar flares from the sun.
4. Electromagnetic Pulse (EMP)."

The 2016 National Republican Party Platform agrees, "The grid is aging, vulnerable to cyber and terrorist threats, and unprepared to serve our energy needs of tomorrow."

Finally, on November 21, 2016, President-Elect Donald Trump stated that he would ask "the Department of Defense and the Chairman of the Joint Chiefs of Staff to develop a comprehensive plan to protect America's vital infrastructure from cyber-attacks and all other forms of attacks."

TX-GOV-19-1114-A-000077

Although we have cited support from both the left and the right of the political spectrum, **the safety, security, and economic well-being of Texans is not a Republican, nor a Democratic issue – it is an issue vitally important to ALL Texans.**

Rapidly accelerating technology, the proliferation of “black hat hackers,” and today’s volatile geo-political environment, have significantly elevated the threat of a catastrophic Electro Magnetic Pulse (EMP) event or a terroristic assault in the form of a cyber-attack or an act of sabotage that could dramatically and irreversibly change life as we know it. While this is a nationwide threat, Texas stands alone in its ability to protect the Texas electrical grid from this threat because Texas is the only state with an electrical grid that is essentially isolated from other states.

At a lunch meeting with Texas Senators last week, US Department of Energy Secretary Rick Perry spoke about the urgency to secure the grid. ***We agree with Secretary Perry and cannot understand why there is not a strong sense of urgency to move forward to protect the Texas grid from terrorists, rogue nations, and naturally occurring geo-magnetic storms.***

Governor, we respectfully ask that you send a signal to special interests that you value the lives and economic livelihood of Texans over their objections. Please put grid security on the call for a special session. ***Lives depend on getting this right.***

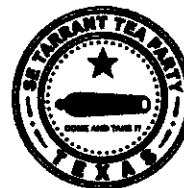

The undersigned strongly support Senator Bob Hall’s grid security bill (SB 83), which will propel Texas forward in the urgent mission to strengthen, harden, and protect our electrical grid against natural-occurring and manmade attacks.

The Honorable Greg Abbott  
Governor of Texas

RE: Election Integrity and Ballot Security

RECEIVED

FEB 04 2019

OOG/CCOM

*Handwritten notes:*  
Miller  
GOS  
Electron-Stat Policy  
86th LS  
GSA Emergency Items

Dear Governor Abbott:

Last week, Secretary of State Whitley released data calling into question the number of non-citizens registered to vote in Texas elections. The announcement follows a year when prosecutions of voter fraud outpaced the past five years combined.

~~Texas has election integrity issues that need to be addressed.~~ Lawmakers in both chambers appear poised to tackle the issue, having focused on the issue of securing elections during the interim. This includes work done by the Senate Select Committee on Election Security.

As you weigh priority issues ahead of your State of the State address, we renew our request that you ~~make election integrity an emergency item~~ to be taken up during the first 60 days of the 86th Legislative Session.

Attached is a Texas Conservative Grassroots Coalition letter sent to your office in August 2018 requesting emergency status for election integrity.

Lawmakers need to be working on reforms to shore up trust in our election system as soon as possible. Your strong renewed public commitment will greatly assist the legislature in doing the work needed to move us toward election integrity and ballot security.

Thank you for your steadfast service to the state of Texas.

Respectfully, the undersigned Texas grassroots political leaders,\*

**Requesting Immediate Executive Action:  
Mandate Citizenship Verification for Voter Registration  
by the Texas Secretary of State**

August 16, 2018

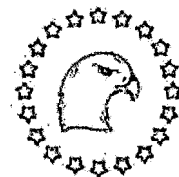

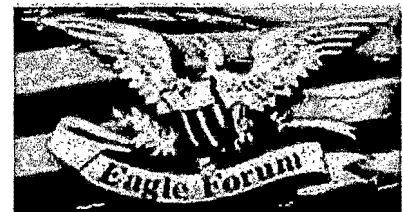

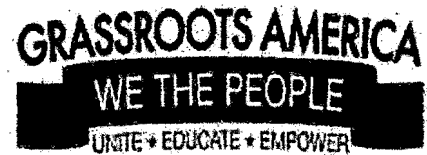

The Honorable Greg Abbott  
Governor of Texas

Dear Governor Abbott:

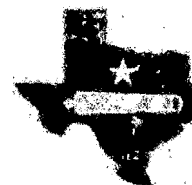

Last year you made election integrity a priority by including it in your call for a special session. That call resulted in the adoption of Senate Bill 5, which increased penalties for people who commit election crimes related to mail-in ballots. Upon signing the bill into law on August 11, 2017, you issued a statement declaring, "It is a primary function of government to protect citizens' right to vote, and I will not allow the integrity of the ballot box to be compromised in Texas." Based on your record, Governor Abbott, we believe you, and we thank you.

Texas must continue to improve our election system, ensuring every possible action is taken to guarantee ballot integrity and election security. Unfortunately, Texans continue to see headlines of non-citizens voting in our elections. In Tarrant County, Rosa Ortega, a legal resident, non-citizen, **had been voting for 10 years** before being caught and convicted. In Beaumont, an El Salvadoran was indicted on multiple federal charges for having voted in the 2016 Presidential election.<sup>1</sup> The list goes on.

In a recent interview Starr County District Attorney Omar Escobar confirmed that non-U.S. citizens are on the voter lists in his county. He is quoted stating, "That non-citizens are registered to vote is beyond question. That non-citizens are voting in Starr County is also beyond question." They are registered and voting, the only remaining question is 'how many.'<sup>2</sup>

Texas Eagle Forum

EMPOWER TEXANS

Non-citizens are also being summoned for jury duty. Often they disclose their non-citizen status as they check in for jury duty. Texas has a process for removing these non-citizens from voter rolls. Unfortunately, the Attorney General's office recently determined that "the process for removing ineligible voters who self-report as non-citizens at jury duty is not being followed correctly, or even at all, in various counties." **In other words – even after illegals notify county jury clerks during the jury selection process that they are non-citizens, they remain on the voter rolls. This is outrageous and unacceptable!**

Officials representing the Texas Secretary of State, the Texas Attorney General's office, and Starr County all testified before the February 22, 2018, Texas Senate Select Committee on Election Security that under the state's current system, **non-citizens can easily register to vote in Texas without being detected.**

To add fuel to our outrage, Keith Ingram, who heads the Texas Secretary of State's Elections Division, testified that the state cancels the registrations of certain inactive and deceased voters, but declared it's the responsibility of county elections officials to investigate and remove all other ineligible people on the voter rolls – including non-citizens.

"Voter registration is county-based," Ingram said. "It's their voters, not ours. That's up to them."

Senator Brian Birdwell asked Ingram what mechanisms the Secretary of State or county voter registration officials have to ensure that non-citizens aren't registering to vote. "Only the jury summons," Ingram responded.

When Senator Don Huffines asked Ingram if the Secretary of State's office, or any other state agency, oversees county elections officials to ensure that they're maintaining accurate voter rolls, Ingram responded, "No."

Governor Abbott, as we make more and more Texans aware of this **sorry state of affairs**, they are understandably outraged. While we appreciate public hearings and the voiced indignation of legislators as they learn of the unfettered access – the open door – we have in Texas for illegals to vote, **we are disgusted that nothing is being done to stop it!** A primary election, a runoff election, and local elections have come and gone in the months since the February hearing. The November 2018 General Election is fast approaching. **Something needs to be done, Governor, and we have a solution.**

The Texas Secretary of State, part of the Executive branch, handles voter registrations for Texas. By federal law, the Secretary of State verifies certain information from the Department of Public Safety's database. This includes addresses, Social Security numbers, and more. The Texas Department of Public

Safety has citizenship information on each person with a state issued identification – approximately 21.5 million Texans; **however, the Secretary of State is NOT checking citizenship information in their processes. This is simply unconscionable to Texans!**

It is a **reasonable expectation** that we Texans would demand that **only citizens** be allowed to vote in our elections! It is time for the finger pointing and excuse making to end, and YOU can end it with executive action.

Governor Abbott – we respectfully write today to ask you, by administrative order<sup>3</sup>, to adopt a policy similar to other states and mandate the **Secretary of State to check DPS citizenship information when completing voter registrations.** The information is right at their fingertips. **Why the SOS has not been using this available information to ensure that we don't have illegal aliens on our voter rolls is something we do not understand!**

Such screening could and should begin tomorrow – without waiting for the Legislature. It could begin tomorrow without further excuses, obfuscation from the Democrats, and further delays, all of which continue to compromise the integrity of our elections. **Having the Secretary of State check citizenship status is fiscally responsible. Since the SOS is already checking the DPS database, it adds no expense to the State.**

**The fact that our Texas elections are being compromised is beyond question. We must now enact, without delay, solutions that will close loopholes and restore confidence in the cornerstone of our political system – elections.**

It is a fact that non-citizens are voting. It is a fact that nobody in state government or county government is exerting due diligence to prevent illegal aliens from voting in our elections. **This is Texas – not California!** We believe the Texas Secretary of State could be and should be checking and removing non-citizens from voter registration rolls. The Secretary of State is under the Governor's purview and authority. **The time is now.**

Governor, until you assume the power of your office to force a resolution for these matters, the legitimacy of every election held in Texas hangs in the balance. **You simply must insist on a rule of law solution to voter fraud in Texas.**

We'll end this strong Texas Conservative Grassroots Coalition request for your action just as we started it – with your firm statement as you signed SB 5 into law on August 11, 2017, **"It is a primary function of government to protect citizens' right to vote, and I will not allow the integrity of the ballot box to be compromised in Texas."**

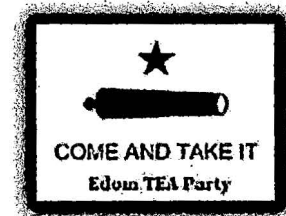

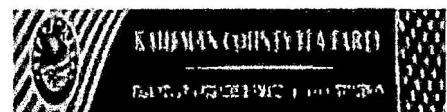

Thank you for your service to the Great State of Texas, Governor. We look forward to hearing from you and seeing you take immediate action to restore integrity to the Texas ballot box!

Sincerely, the undersigned Texas grassroots political leaders,\*

May 24, 2017  
The Honorable Greg Abbott  
Governor of Texas

RECEIVED

**MAY 26 2017**

OOG/CCOM

**Dear Governor Abbott:**

Thank you for prioritizing ballot integrity this session. With recent media reports about voter fraud throughout the Metroplex, and multiple ongoing investigations in progress by the Texas Attorney General's Office, it gets clearer every day that you were correct when you cited voter fraud as a major problem in Texas and made it clear this serious issue must be addressed immediately [See Exhibit A - Screenshots of @GregAbbott\_TX Tweets] While you promised multiple times to make ballot integrity a top issue this legislative session, the House had different plans. **Every major election integrity reform bill died in the Texas House.**

## Texas Eagle Forum

This coalition letter expresses our deep frustration that election reform bills that would have brought integrity to all elections in Texas were killed in the Texas House. This is unacceptable. The election integrity and ballot security we seek **begins** at the point of voter registration, **follows** through the process of the actual casting of votes, and **ends** with the preservation of each voter record (publicly viewable [paper backup records](#) to verify electronic election results) in a manner that ensures ***every vote cast is a legal vote and verifiable***, should the election results of any race be called into question.

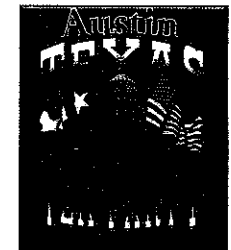

Fortunately, for Texans, our election statutes originate in our State Constitution Article 6, Section 4: *"In all elections by the people, the vote shall be by ballot, and the Legislature shall provide for the numbering of tickets and make such other regulations as may be necessary to detect and punish fraud and preserve the purity of the ballot box..."* **Governor Abbott, the cold, hard truth is that we do not have the laws or the enforcement mechanisms in place to fulfill this constitutional mandate!**

**EMPOWERTEXANS**

Election Integrity is an issue with wide bi-partisan support. Witnesses from the Valley to the DFW Metroplex came to Austin to testify on the importance of election reforms and the dramatic need to correct the defects in our election process. We heard of criminal investigations into voter fraud happening throughout the state, but we also repeatedly saw how the weak election code precludes law enforcement from obtaining felony convictions. We can continue to modify the code, or we can get serious about election fraud and give law enforcement the tools they need to eradicate it.

We heard of case after case of organized groups stealing hundreds, or in some cases, thousands of ballots. **These criminal enterprises must be stopped.** Several strong bills were filed to do just that. HB 4131 and HB 4133 would increase penalties for ballot harvesting; thereby giving law enforcement the tools they need to prosecute. Current law only provides for prosecution of the field worker; however, we know that there are people financing and planning these vote harvesting operations. HB 4134 would allow for the prosecution of

those organizing ballot harvesting groups. We must equip district attorneys and the Office of the Texas Attorney General to be able to secure convictions in these cases.

We have also seen several recent convictions of non-citizens who voted in our elections. *It is appalling that neither the Texas Secretary of State nor any election official in any of our 254 counties is mandated by law to verify the driver's license or Social Security numbers used by individuals when they register to vote!* Governor, it is essential that HB 3474 be passed to require the Secretary of State to verify citizenship status of registered voters against the DPS database and/or other available databases. *We implore you to use every power available under the Texas Constitution to ensure that only US citizens are registered to vote in Texas!*

Governor, we agree with your social media comments pointing out the dramatic need for Texas to eradicate voter fraud. We have cited specific bills in this letter; however, the following underscores our concerns and specifies areas that need your immediate attention:

First, **we support legislation that would restore the ability of Texas to participate in programs such as Interstate Crosscheck.** These programs ensure voters are citizens and are not on multiple voter rolls. However, according to the Texas Attorney General's Office, our state cannot enforce a current law that allows this verification process due to a Texas Supreme Court ruling that made date of birth information off limits. Legislation should make that information public and allow Texas to participate in crosscheck programs.

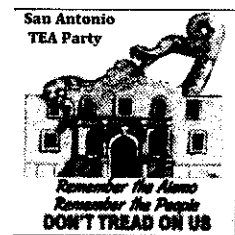

Second, **we support legislation to increase penalties for election crimes.** Many important offenses in the Election Code are only misdemeanors. These low penalties disincentivize prosecutors from pursuing these important crimes and incentivize criminals to commit them.

Third, **we support legislation that would address the issue of organizations that harvest ballots by enacting a conspiracy statute.** Courts have recognized that mail-in ballots pose a serious risk for fraud. Current laws are so focused on individuals that commit election crimes that they are ineffective at addressing criminal organizations. Copying the type of organized crime statute we have in the Penal code into the Election Code would enable prosecutors to more effectively address the organizations that unlawfully harvest mail-in ballots.

We ask you to call a special session to deal with these matters. **Election integrity and ballot security simply should not and cannot wait until the 86<sup>th</sup> Texas Legislative Session!**

Governor, until you assume the power of your office to force a resolution of these matters, the legitimacy of every election held in Texas hangs in the balance. You simply must insist on a rule of law solution to voter fraud in Texas.

We beseech you to call the legislature back to a special session to do this important work for the people of Texas. A government by and for the People only exists when the People can have confidence that the results of an election are a reflection of the collective intent of *eligible voters*.

GOVERNOR GREG ABBOTT

July 9, 2019

Mrs. JoAnn S. Fleming  
Executive Director  
Grassroots America – We the People  
P.O. Box 130012  
Tyler, Texas 75713-0012

Dear Mrs. Fleming:

Thank you for contacting the Office of the Governor. Governor Abbott appreciated receiving the input and concerns regarding property tax and school finance reform from all of the signatories of your correspondence. Please know he remains dedicated to the conservative principles that form the foundation of the Lone Star State and to the Texas values of family, faith, and freedom.

Over the past decade, Texans made clear their concerns about skyrocketing property taxes as well as our state's public school finance system. In response to these concerns, in his State of the State address at the beginning of the recently concluded 86<sup>th</sup> Legislative Session, Governor Abbott declared reforming the state's public school finance and property tax systems to be an emergency item, challenging his partners in the Legislature to answer the concerns of taxpayers and parents to ensure comprehensive reform in Texas.

As a result, in June 2019, Governor Abbott was proud to sign into law Senate Bill 2 (SB 2) and House Bill 3 (HB 3), creating meaningful and lasting tax reforms that reinforce your private property rights by limiting the power of local taxing entities to increase taxes without voter approval and delivering the most significant educational transformation in Texas in nearly 40 years.

Under SB 2, most cities and counties in Texas will not be able to raise property tax revenue by more than 3.5 percent without triggering an election. To go above 3.5 percent, elected officials will have to make their case to the voters before raising taxes. This ensures that local governments live within their means, like Texas families do.

Likewise, because of HB 3, school districts will not be able to raise property tax revenue by more than 2.5 percent. There are other taxpayer protections in HB 3:

- Requires Boards of Trustees to conduct an efficiency audit prior to going out for a TRE starting in January 2020
- Adds ballot language stating "THIS IS A PROPERTY TAX INCREASE" for bond elections
- Reinforces prior law so that M&O/Interest & Sinking tax swaps are illegal

Mrs. JoAnn S. Fleming

July 9, 2019

Page 2

The reforms also give Texas homeowners and business property owners new tools that protect the rights of taxpayers and property owners and increase transparency. SB 2 requires an online database of property tax related information that shows the proposed tax rates for each taxing unit and when they will meet to adopt a tax rate. Taxing units are also required to post their budgets, tax rates, and tax rate calculation worksheets online. The bill also makes numerous improvements to the protest process, including prohibiting an Appraisal Review Board (ARB) from increasing the value of a taxpayer's property above its initial value and increasing training requirements for ARB members and arbitrators.

Under HB 3, the State of Texas is putting more education dollars in the classroom. We are focusing funding on student need, not zip code. We are paying our teachers more and rewarding school districts for student outcomes. We are requiring all districts and charters provide for the use of a phonics curriculum that uses systematic direct instruction in K-3, and requires districts to prioritize the placement of highly effective teachers in K-2. And we are reducing the Robin Hood recapture so that more of your tax dollars stay in your school district. This historic bill also provides over \$5 billion to buy down property tax rates.

For more information about these recently enacted property tax and school finance reforms, please visit our office's website at <https://gov.texas.gov>.

Rest assured, Governor Abbott will continue working to ensure the Lone Star State remains the best place to live, work, and raise a family.

We thank and commend you for your commitment to the Lone Star State and your work on behalf of your communities. Please let us know if we can assist you in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Dede Keith", with a stylized, flowing script.

**Re: Texas Ethics Commission Repeated Lies in State and Federal Court / History of Abuse**

Dear Governor Abbott, Lieutenant Governor Patrick, and Speaker Straus:

We write to bring the outrageous conduct of the commissioners and staff of the Texas Ethics Commission to your attention and to call for the agency to be brought under the investigation and oversight of the Texas House of Representatives and the Texas Senate.

The agency is pursuing rules and interpreting state statutes in ways that threaten the free speech rights not only of civic groups, but also of churches and individuals.

In defense of their unconstitutional actions, the TEC and the individual commissioners and staff have now been caught in blatant lies in federal and state court. The lies serve to prolong a vendetta against the state's leading conservative organizations.

## **Brief History of the Texas Ethics Commission**

The current constitutional crisis at the TEC has been two and a half decades in the making.

The TEC was initially created at the behest of Democratic Governor Ann Richards. Presented to the voters via constitutional amendment, the TEC was billed as an agency that would take over from the legislature the job of recommending legislator salaries and setting the legislative per diem.

Also in the authorizing legislation was a grant of power allowing the legislature to confer additional duties to the TEC by statute.

The legislature granted to the TEC the power to investigate and prosecute Texans for violations of the state's lobby registration and election laws. Those statutes required the commission to adopt rules governing its proceedings in so-called "sworn complaint" proceedings. For more than 25 years, the commission has refused to adopt the rules mandated by statute.

Confidentiality provisions built into the statutes have been warped against the accused and manipulated by the TEC to shield the agency from scrutiny. Rather than protecting the accused from public allegations that they are "under investigation" for "ethics violations," the confidentiality rules instead empower the TEC commissioners to meet in secret where they harass and cajole their targets, typically for minor paperwork violations.

The statutes fail to impose any effective "speedy trial" or statute of limitations protections, and consequently, TEC investigations and prosecutions drag on for years, subjecting the TEC's targets to burdensome legal expenses. Such protracted beadledom has led to a backlog of hundreds of cases at the TEC where it takes nearly two years for a complaint to get a hearing.

At the TEC, the process is the punishment.

## **Cooperation with Far-Left State Ethics Agencies**

Last year, the TEC was exposed in the national press for participating in a politically biased email group. The group was hosted by the state of Vermont and was used by left wing state ethics regulators to share strategies on how to defend aggressive anti-speech regulations.

In the exposé, national columnists J. Christian Adams and Hans Von Spakovsky released records showing that the staff attorneys for the TEC sought advice for their cases against conservative Texas groups. Participation included government employees in New York City and the following states: California, Colorado, Hawaii, Illinois, Nevada, New York, Texas, Vermont, Washington, and Wisconsin. Texas was the only conservative "red" state participating in the email group.

In the electronic discussion, TEC staff praised articles from the left wing Brennan Center of New York City. The Brennan Center has been one of the chief voices in favor of undermining the *Citizens United* decision, recently praising the speech-chilling effects achieved by the “tough disclosure requirements and active enforcement culture” in California.

Similarly, attorneys on the Vermont email list who sought advice were referred to the Campaign Legal Center for assistance in tough cases. The Campaign Legal Center is a far-left organization funded by George Soros that champions burdensome anti-speech regulations.

Additionally, the commissioners and staff of the TEC attend and participate in the annual Council on Government Ethics Laws national conference. COGEL is a national umbrella organization of state ethics agencies committed to imposing greater speech regulations on Americans. In fact, long-time TEC commissioner Tom Harrison previously served as the Secretary-Treasurer of COGEL. The most recent COGEL conference featured Norm Eisen. A former Harvard classmate of Obama and one of his major bundlers, Eisen was appointed as the President’s “Ethics Czar.” During the question and answer period, Eisen defended Hillary Clinton as “an ethical person” and advocated for more aggressive regulation of speech.

The conference also featured the far-left chairman of the Federal Elections Commission, Ann Ravel, who drew national criticism after moving to regulate social media activity under campaign finance laws. Likewise featured was Kevin Kennedy, the disgraced former executive director of the Wisconsin Governmental Accountability Board. The GAB was abolished and Kennedy was fired by the Wisconsin legislature after the agency coordinated pre-dawn raids on the homes of conservative activists. The raids were in response to allegations that the activists coordinated their speech with the reelection campaign of Governor Scott Walker. Kennedy and the GAB were condemned by the Wisconsin Supreme Court for pursuing cases that had no basis in law or fact.

TEC Executive Director Natalia Ashley was named to COGEL’s 2016 steering committee, signaling that the TEC’s role in the organization is growing.

### **Lies in Federal and State Court**

Desperate to advance the far-left anti-speech agenda of COGEL in Texas, the TEC commissioners have resorted to telling outright lies in state and federal courts.

Last year, in procuring a dismissal of a suit brought against them by the Lake Travis Citizens’ Council, the TEC commissioners assured the Federal District Court for the Western District of Texas that the Citizens’ Council, a nonprofit corporation, could not be prosecuted for failing to register as a political committee because the Council, as a person and not a “group of persons,” could never meet the definition of a political committee under Texas law. Concluding that corporations, like the Lake Travis Citizens Council, were not at risk of being prosecuted for

failing to register as a political committee, District Judge Lee Yeakel dismissed the *Lake Travis* case on December 14, 2015.

That concession should have protected churches and other non-profit civic organizations from allegations that they failed to register as political committees.

However, the TEC commissioners have refused to end legal cases against comparable non-profit organizations, including Empower Texans and the Texas Home School Coalition.

On June 30, 2016, in their brief to the Austin Court of Appeals in *Empower Texans, Inc., et. al. v. State of Texas Ethics Commission, et. al.*, the TEC commissioners defended their right to continue investigating Empower Texans under a theory that Empower Texans failed to register with the commission as a political committee. The brief, in its entirety, serves as a repudiation of the promises made by the commissioners in 2015 in Federal District Court and a rejection of *Citizens United* and other decisions protective of the First Amendment.

Moreover, the commissioners lied to the Austin Court of Appeals.

At the center of the arguments by the TEC commissioners are five emails from Empower Texans from 2011. The emails included an online donation button and a plea that readers “consider making a monthly or one time contribution of \$5, \$10, or \$25 to fund independent expenditure activities that promote conservative leadership in the Lone Star State.” In their pleadings, the commissioners argue that the appearance of that language and the donate button in five emails caused Empower Texans and its donors to somehow morph into a political committee. The commissioners claim the power to regulate, prosecute, and punish Empower Texans for failing to register as a political committee and are attempting to force the organization to disclose the privacy of its donors.

The TEC commissioners’ arguments directly contradicts the promises they made in federal court last year.

In their brief, the commissioners conceded:

*“This case would be resolved if Empower Texans ... confirmed that \$375 was the total number of donations from the ads. A number lower than \$500 would not even trigger an inquiry into the motivations of the participants, and whether they were shared.”*

**Attached to the commissioners’ very own brief was a spreadsheet along with several emails confirming that Empower Texans received less than \$500 from the five emails.** The TEC has known for 28 months that the facts do not support their investigation, even under their disputed theory.

After the commissioners were made aware that their statement was false, they again refused to dismiss their investigation into Empower Texans. Instead, TEC Chairman Chase Untermeyer took to the pages of the *Houston Chronicle*, promising to continue the agency's crusade against the agency's conservative opponents and pejoratively referring to the donors to such organizations as "bashful billionaires" while arguing a right to force their disclosure.

## **War on Churches**

While the TEC's collaboration with liberal states has garnered a national spotlight, its war on churches and religious figures has received insufficient attention.

When the City of Houston and Mayor Annise Parker attempted to subpoena the records of churches opposed to the Houston transgender bathroom ordinance, Republican officeholders rallied in unison to condemn the attacks and defend the churches.

Yet the TEC has engaged in worse behavior with little attention from the elected leaders who have the ability to curtail their abuses.

The TEC commissioners have advanced rules that would heavily regulate churches that engage in advocacy regarding ballot initiatives, bond elections, constitutional amendment elections, local option liquor elections, and recall efforts.

In El Paso, the TEC's rules were used against Bishop Tom Brown. Over the past five years, Brown has been subjected to litigation under the allegation that his church violated election laws because he and his congregation circulated a petition to recall former El Paso Mayor John Cook. The recall effort came after Cook issued city health insurance benefits to homosexual and unmarried partners of city employees. Brown was forced to finally settle the case for nearly \$500,000 in order to save his church from bankruptcy.

The TEC commissioners themselves have litigated against churches as well. In *Joint Heirs Fellowship Church, et. al. v. Natalia Ashley, et. al.*, the TEC opposed two Houston churches and a San Antonio church over their right to engage in a potential San Antonio recall election. The TEC refused to concede that the churches would not be required to register as political committees if they and their members participated in gathering signatures for recall election petitions.

The gravity of the TEC's position cannot be understated.

If a church is determined by the TEC commissioners to be a political committee, then it would be compelled to disclose in elaborate reports the identities of those members who choose to tithe and the amounts the members give. In fact, regulated churches would effectively be barred from passing a collection plate because anonymous contributions would render the church unable to

comply with burdensome campaign finance disclosure requirements. And if a church refused to comply, or made a mistake on their paperwork, the pastor and other church members could be subject to criminal penalties.

### **Investigation and Oversight Needed**

How far can these commissioners go in trampling the constitutional rights of Texans before drawing scrutiny? How many times must the commissioners be caught lying to the courts before they are held accountable?

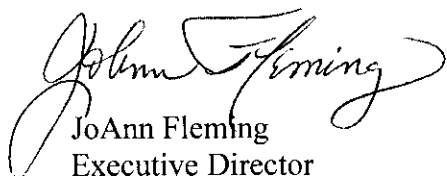

The Senate Committee on State Affairs will be holding a hearing on an interim charge regarding ethics legislation on October 5, 2016. The hearing presents an ideal opportunity for senators to demand answers from the TEC commissioners on the following and other issues:

- How do the TEC commissioners justify telling one federal court that the TEC would not prosecute non-profit groups for failing to register as political committees, while simultaneously pursuing claims against other non-profit groups in state court?
- Do the TEC commissioners respect the US Supreme Court's decisions in *Citizens United* and *United States v. McIntyre* that secured the right of organizations to speak on the most salient issues of the day, and to speak anonymously when they so choose?
- Do the TEC commissioners continue to collaborate with liberal states and far-left officials and activists to develop strategies to attack and silence conservative groups in Texas?
- Will the TEC commissioners continue to prosecute complaints against Texas churches under state election laws?

The Texas House of Representatives should follow suit and investigate the commissioners and staff at the TEC for their inexcusable and inexplicable actions. They must be held accountable.

The Texas Ethics Commission presents a great threat to the constitutionally protected liberties of 27 million Texans. All of the commissioners need to be replaced, and the agency needs to be fundamentally reformed or abolished.

The Honorable Greg Abbott, Governor of Texas  
The Honorable Dan Patrick, Lieutenant Governor of Texas  
The Honorable Joe Straus, Speaker of the Texas House

Dear Governor Abbott, Lt. Governor Patrick, and Speaker Straus:

The supplemental budget for the current biennium means that both the Texas House and Senate are violating the spirit of the Republican Party platform call to keep spending less than population growth combined with inflation. **As numbers compiled by the Texas Public Policy Foundation indicate, if either the proposed House or Senate supplemental to the 2016-2017 budget is passed, it will mean that the Legislature did not, in fact, pass a conservative budget in 2015.** Worse, it will set an even more unaffordable floor for the next budget.

For the next biennium, Texas House budget writers have proposed spending that exceeds both the Comptroller's official revenue estimate and the spirit of the Texas GOP platform's defined conservative levels. The Texas Senate, meanwhile, has put forward a 2018-2019 budget that lives within **available revenues** and the population growth plus inflation limit – the spending limit strongly supported by taxpayers, grassroots conservative activists, and the Republican Party platform.

It is inexcusable for House budget writers to consider using the Economic Stabilization Fund (Rainy Day Fund) rather than reduce spending. Spending down the fund just because it exists is not wise, nor fiscally conservative.

We call on you to reduce the size of the 2016-2017 supplemental budget and adopt a 2018-2019 budget that is *at the very least* as conservative as the one proposed by the Texas Senate. Anything beyond that will be an affront to taxpayers, conservative activists, and Republican voters.

Texas Free Market Coalition  
20170425 0508  
**Texas Free Market Coalition**  
**An Open Letter to Mr. Warren Buffett**  
**RECEIVED**

April 24, 2017

APR 25 2017

Dear Mr. Buffett,

OOG/CCOM

Thank you for drawing attention to Texas' protectionist auto dealership laws. For decades, the auto dealership lobby has funneled millions of dollars into the campaign coffers of politicians who claim to be free market champions in order to protect dealer markups from the free market. **Welcome to the fight.**

Unfortunately, we have concerns about your proposed solution. While we agree that ownership of an RV production facility should not preclude ownership of an auto dealership in Texas, your turbo-tracked SB 2279 by Texas Republican Sen. Kelly Hancock offers limited relief – much too limited.

Senator Hancock's bill relies upon what Ross Ramsey of the *Texas Tribune* called "the kind of distinction lawyers are paid to conjure" to allow a politically favored entity access to the Texas auto market. If this bill were to pass, Texas consumers would still be held hostage to the dealer markup of the auto sales lobby. **Too bad for us – right, Mr. Buffett?**

While other industries are allowed to innovate and modernize, creating efficiencies, saving consumers money, and improving customer service, the Texas auto industry remains stuck in the past. Worst of all, they rely on government protection to maintain their monopoly. **Yes, the reality is that most of our Texas politicians who claim to be free market champions are happy to engage in protectionism and to use our tax dollars to pick winners and losers.**

In picking winners and losers, politically directed allocation of capital impoverishes us all. As the Texas Public Policy Foundation explains in their 2016 publication *Policymaker's Guide to Corporate Welfare*: "proponents of corporate welfare suffer from a false belief in central planning. They believe that either they or government planners can best determine the [business model] that has the best chance of success, which jobs and products best supply society's needs, and where best to expend scarce supplies of capital. They believe that they just can't sit back and let the economy take care of itself; they have to take money and property from citizens in order to solve the citizens' problems for them." This special interest-laden intermingling of business and government inevitably begets fewer jobs and a higher cost of living.

Fortunately, Mr. Buffett, a better alternative exists. SB 2093 and HB 4236 have been filed in their respective chambers by free market champions Texas Sen. Bob Hall and Texas Rep. Jason Isaac. These direct sales bills would repeal the laws in question. **If those bills were to pass, you would be able to own dealerships in Texas, while Texas consumers would benefit from more options at lower prices.** It's a win/win or what economists call a "positive sum outcome."

Texas Eagle Forum

Unlike your special SB 2279, which was written, filed, and passed out of committee in three days' time – more than a month **AFTER** the official deadline for filing bills – these clean “no carve-out, no special perks” direct sales bills have been languishing in committees chaired by Texas Sen. Kelly Hancock and Texas Rep. John Keumpel. The opportunity still exists for these free market alternatives to cross Texas Gov. Greg Abbott's desk. **Your support for SB 2093 and HB 4236 would be greatly appreciated.**

Mr. Buffett, we are just ordinary Texans fighting to keep some of our hard-earned money through true free market choice, unhampered by government meddling. **Since you obviously have much more influence over our state officials than we do, we ask for your help in passing the direct sales bills that would benefit all Texans.**

Noted philanthropist that you are, your assistance in passing SB 2093 and HB 4236 in the Texas Legislature is eagerly awaited.

Sincerely, the undersigned supporters of a Texas Free Market,\*

RE: Permanent Property Tax Relief

Dear Governor Abbott:

With billions in excess revenue flowing into state coffers over the next two years, Texas lawmakers have an unprecedented opportunity to provide **permanent property tax relief** to all Texas families, but rather than return money to taxpayers in the form of meaningful property tax relief, legislators have gone on a spending spree.

According to an analysis by the Texas Public Policy Foundation, the Texas House plan for spending (HB1) is up 13.8% in all funds (all state funds + federal funds) and 14.4% in just state funds (**excluding Harvey recovery dollars**), meaning both far exceed the Conservative Texas Budget limits of 8% in population growth plus inflation. The Senate's budget at \$239.1 billion, excluding Harvey money and including supplemental appropriations, is up 10 percent in total, also above the Conservative Texas Budget limit, but closer than the House's budget.

So far, this legislative session, little has been done to protect taxpayers or encourage conservatives to fight for Republicans in 2020. **We call on you to demand better of our Republican legislators before they surrender the state to Democrat control.**

**Republican lawmakers have a choice; spend the new windfall and grow government or return it to taxpayers in the form of lower school tax bills.**

Texas Eagle Forum

from  
GRASS  
RALLY ON TUES @ NARF  
Roots Org.

AMERICAN  
OVERSIGHT

TX.GOV-19-1114-A-000111

Unfortunately, current proposals, such as House Bill 3, plan to spend up to 70 percent of this surplus on higher spending, rather than on reducing school property tax bills. That's \$6.3 billion in new public education spending *in addition to* another \$2 billion to pay for student enrollment growth.

Only 30 percent—or \$2.7 billion of the \$9 billion of new state spending—would go toward reducing local school property tax rates by an average of 4 cents per \$100 of property valuation. For a Texan with a \$200,000 home, they could see annual savings of \$80; however, if **their appraisal value increases 3 percent or more over the next two years, homeowners will never see or feel permanent tax relief.**

As proposed by the Texas Public Policy Foundation, Republican lawmakers should pass a bill that would force the State of Texas to make relief permanent, by **dedicating 90 percent of all surplus state revenue to lowering school tax bills.**

In addition to failing to propose significant and permanent tax relief, Republican lawmakers are not pushing to phase out the unfair and unpopular wealth redistribution scheme known as the “Robin Hood” property tax, which overtaxes an increasing number of Texas families each year.

While lawmakers supporting HB 3 claim it would “reduce Robin Hood recapture by 38 percent,” their own numbers prove this to be false. HB 3 would only *prevent recapture from increasing*; it **would not reduce recapture!**

According to the Texas Education Agency, total recapture statewide was **\$4.74 billion** in the 2018-19 biennium. Upon passage of HB 3, recapture would remain flat at **\$4.7 billion** over the next two years (2020-2021).

Governor, along with Lt. Governor Dan Patrick and House Speaker Dennis Bonnen, you have supported an important property tax *reform* to help slow the growth of property tax bills. A necessary component of any such reform is empowering taxpayers with more control over tax burdens by requiring cities, counties, and school districts to obtain voter approval for annual tax hikes of 2.5 percent or more – a policy supported by 77 percent of Texans (Quinnipiac University poll released 02.26.19). These tax hike elections must be required to be held on a November uniform election date.

***But property tax reform is not enough. Slowing the growth of stifling tax bills is not enough.***

**SAVE OUR TEXAS VOTE**  
True Texas Elections, LLC

*Texans are taxed enough already and will not be satisfied with lawmakers if they merely protect the status quo. Texans want, need, and deserve a net reduction in their property tax bills, and the state has the money through existing revenue streams to provide permanent tax relief, without raising new taxes or fees.*

We call on you to push Republican lawmakers to pass property tax reform (SB2/HB2) with the 2.5 percent rollback rate applied to **every local taxing entity** in the state—including school districts—and require automatic November tax ratification elections. **We strongly oppose any effort to water down the legislation.**

We recognize that whether funding comes from state coffers or local coffers, it all ultimately comes from the wallets of taxpayers. Statewide, property tax increases have greatly outpaced the average taxpayer's ability to pay. From 2012 to 2017, **local property tax revenues soared by almost 40 percent across the entire state**, according to the Comptroller's Biennial Property Tax Report. That's well above population growth and inflation increases, which rose just 15.3 percent.

We call on Republican lawmakers to pass permanent tax relief by increasing the state's share of public education spending. A *majority* of surplus state revenue—\$4.6 billion, or more—should be dedicated to buying down school M&O property tax rates.

Likewise, we also call on Republican lawmakers to make property tax relief permanent, by amending law to require that 90 percent of future surplus state revenue be dedicated to lowering school M&O property taxes, until it's entirely repealed. Once repealed, Robin Hood would be eliminated, and the average Texan would see a 40 percent reduction in their total property tax burden.

Governor Abbott, whether this session will be remembered as one in which legislators delivered on long-made promises to taxpayers *or marked the end of Republican control of the Texas legislature*, it rests in **your hands. We are counting on you.**

Respectfully, the undersigned Texas grassroots political leaders, \*

Subject: Property tax reform

Ben,

You know this as well as I do: Texans suffer under a horribly burdensome property tax system, and it is only getting worse.

The Senate, led by Lt. Gov. Dan Patrick, passed a strong reform to give voters real power in controlling property tax burdens. The Texas House did virtually nothing. *(I know you're shocked.)*

GOP lawmakers who all campaign on the problem of high property taxes are heading home, hoping no one will ask why their leaders— like House Speaker Joe Straus and Republican caucus chairman Tan Parker — obstructed efforts designed to empower taxpayers.

It's tempting to just let House members stew in their failure, but that only hurts Texans who are already suffering.

Fortunately, **Gov. Greg Abbott can put right what the House did so wrong.** He can call a special session for *comprehensive property tax reform*.

Let Gov. Abbott know you support a special session on property tax reform: complete the online petition and call his office at (512) 463-2000.

For Texas!

Morgan Williamson
